

600mm Telescopic Load Spreading Bridge

Our improved 600mm Telescopic Load Spreading Bridge was originally designed for testing constant force posts however, has general testing capabilities.

It has been re-engineered and is now made of lighter aluminium material and is easier and more efficient to assemble, operate and store.

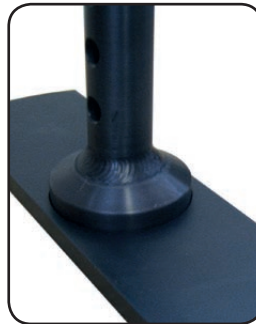

It features three 665mm legs which will rotate through 360 degrees and feature 23 height positions.

600 BRIDGE CONTENTS

- 1 x 600mm Load Spreading Bridge (Max Load 25kN)
- 3 x Telescopic aluminum Legs
- 3 x Pins
- 1 x M12 Stud Coupler
- Ball Driver
- Screws
