

Digital Gauge

The Hydrajaws standard digital gauge provides many advantages over the standard analogue gauge including more accurate and clear results.

- Standard 25kN, 30kN and 145kN are available (other sizes are available on request).
- Rise and fall mode and Peak hold function available.
- The Digital gauge has an **improved accuracy class of +/- 1.5%** full scale deflection (Analogue gauge accuracy class of +/- 2%).
- The ambient temperature operating range is **-20 degrees C to +35 degrees C.**
- **New improved Gauge issue 3 features :**
 - 'backlight' facility for improved viewing in low light applications.
 - screen orientation flips allowing easy reading from any angles*.

- tougher outer gauge protective cover supplied as standard.
- Improved interface allowing easier setup and operation of facilities such as 'peak hold'.

* Set by Hydrajaws upon request.
