

Record results digitally using the Hydrajaws App and manage results and reports from a remote online dashboard.*

* Requires a monthly subscription. Gauge, laptop and mobile not included.

The Hydrajaws Bluetooth Digital system allows on-site pull tests to be automatically recorded and compiled into a digital report using the Hydrajaws Bluetooth Digital App on a mobile phone or tablet device. These reports can be sent directly to clients or managers and are stored in the cloud to be accessed remotely anywhere on a browser in a users own company dashboard.

The comprehensive report will include all test information including a pass or fail result, a visual results graph, fixing details, site location co-ordinates, date and time. Notes, images and photos taken on-site can be also be added.

Using the Dashboard a company administrator can review all test reports from all company users. They can also add notes to reports and send them directly to customers.

The Dashboard contains all essential information including :

- All company devices and their calibration dates.
- All company users and licences.
- A GPS map containing all test sites.
- A list of Hydrajaws Approved International Service Centres.

Download the app from the Google Play Store or the Apple App Store and start your free trial.
