

M35⁺

Inline Tension Test Accessory Kit

The **Hydrajaws M35+ Inline Test Accessory Kit** is designed to allow for testing **in-line tension** of wire ropes used for fall-arrest systems, strain measurement of rigging, guy ropes, overhead lifting points, rail systems, mast supports and checking the security of crimped/swaged end fittings as applied to wire ropes up to a maximum of **35kN** (7,874 lbf).

M35+ Inline Tension Test Kit

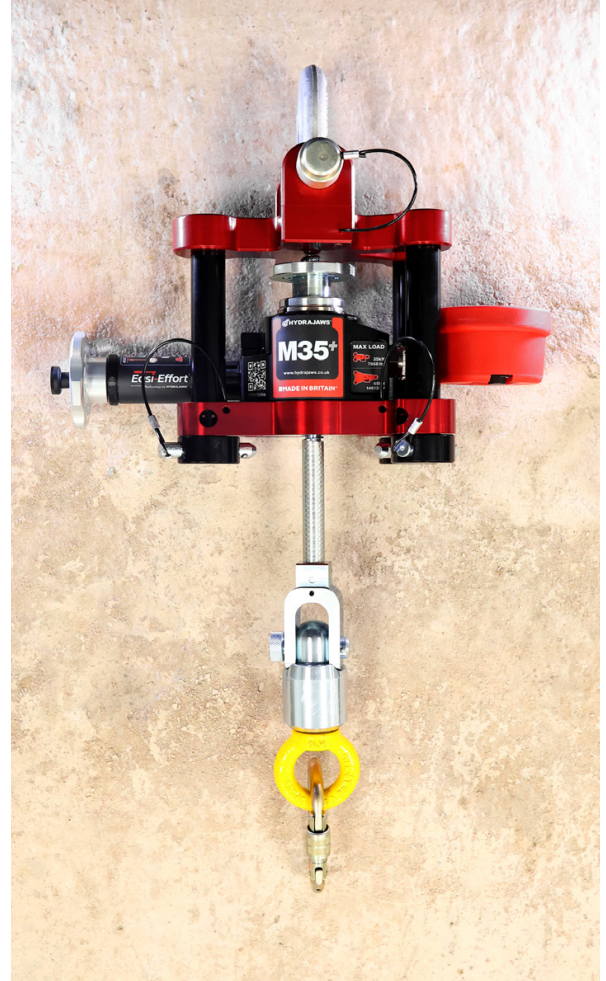

The **Hydrajaws M35+ Inline Test Accessory Kit** is designed to allow for testing in line tension of wire ropes used for fall-arrest systems, strain measurement of rigging, guy ropes, overhead lifting points, rail systems, mast supports and checking the security of crimped/swaged end fittings as applied to wire ropes.

The Tester has two fixing points to accommodate standard screw pin anchor shackles or clevises.

Using an external 3 ton rated chain block assembly the applied load is then displayed directly onto the loadcell digital gauge of the M35+ up to a maximum of 30kN (7,874 lbf).

Typical tests applications include testing between fall protection anchor posts, overhead lifting points and rail systems.

Results can be recorded via the Hydrajaws Verify App.

Kit Features

- The **Inline Test Accessory Kit** is for use with a **Hydrajaws M35+ Pull Tester** (**Not included**)
- Capable of testing up to 30kN (7,874 lbf)
- Tester has two fixing points to accommodate standard shackles, clevises
- Lightweight aluminum body
- Test Bridge and legs
- 3.25 Tonne shackle and retained threaded pin
- 4 Tonne M16 threaded eyebolt with clevis adaptor
- 30kN karabiner

TECHNICAL DATA

- Supplied in Hydrajaws Rucksack
- Part #: 290-014
- Warranty: 12 months
